

MINOR IN GEOGRAPHY

Geography addresses highly relevant issues like climate change and human adaptation; water resources and their management; community organization and evolution; social interaction in urban space; and northern development in permafrost environments.

Our programs provide you with the knowledge, tools and technical skills that make you highly employable as soon as you graduate. What's more, emerging technologies such as computer cartography, remote sensing and geographic information systems (GIS) are an integral part of the curriculum, as are unforgettable field experiences in Canada's north land, in the Great Lakes basin and in the Appalachians.

This program is offered in English and in French.

Program Requirements

The table below includes only discipline-specific courses. Please refer to the Academic Regulations for information on including a minor to your degree.

Requirements for this program have been modified. Please consult the 2015-2016 calendars (<http://www.uottawa.ca/academic/info/regist/1516/calendars/>) for the previous requirements.

GEG 1301	The Physical Environment	3 Units
GEG 1302	Places and Spaces of Human Activity	3 Units
3 course units from:		3 Units
GEG 2108 Contested Places		
GEG 2110 Sustainable Cities		
3 course units from:		3 Units
GEG 2301 Earth Surface Processes and Landforms		
GEG 2304 Climatology		
12 optional course units in geography (GEG)		12 Units
6 optional course units in geography (GEG) at the 3000 or 4000 level		6 Units
Total:		30 Units
